# **Bromford Flagship**

# **Gas Safety Policy**

## **Policy Statement & Purpose**

The purpose of this policy is to demonstrate Bromford Flagship's commitment to ensuring the risk to people, buildings and the wider business are reduced as far as reasonably practicable while ensuring that all legislative requirements are met.

Our policies are supported by other documents including detailed procedures and processes to ensure that the policies are fully embedded into routine working practice.

Bromford Flagship are responsible for the servicing and maintenance of relevant gas installations and appliances installed within its stock portfolio. In doing so Bromford Flagship are fully committed to meeting all applicable statutory & regulatory requirements, including best practice standards in gas safety management, ensuring continual improvement in compliance performance and adopting a risk averse approach for any non-approved deviation from this Policy. Our \*Board, as duty holder will receive assurance of statutory, legislative, and regulatory compliance at regular intervals for their review and scrutiny.

#### **Contents**

- 2. Legislative or Regulatory Requirements
- 3. Responsibilities/Duty holder
- 4. Principles (Core content)
- Linked documentation (including policies, procedures, standards and processes)
- 6. Competence and training
- 7. Agreed KPIs
- 8. Assurance Framework
- 9. Document details and version control

#### 1. Scope

This Policy covers Bromford Flagship Group and its subsidiaries [excluding Gasway].

Bromford Flagship have a duty to ensure that gas appliances, flues and associated pipework provided are safely maintained and annually safety checked by appropriately qualified contractors and engineers. We will ensure that we fully comply with our legislative and statutory duties in the maintenance of gas appliances, flues and pipework.

Our policy and processes ensure that our contractors and our own qualified engineers provide a high-quality service in terms of competence, customer advocacy and maximisation of the life of our assets and their components. The policy provides assurance to Bomford Flagship that measures are in place to ensure compliance with the regulations and to identify, manage and/or mitigate risks associated with gas fittings, combustible appliances and flues.

The policy is relevant to all Bromford Flagship colleagues, customers, contractors and other persons or other stakeholders who may work on, occupy, visit, or use its premises, or who

<sup>\*</sup>References to "the Board" in this document and our governance arrangements mean the coterminous Board acting as the Boards of Bromford Flagship Limited (BFL), Bromford Housing Association Limited (BHA), Flagship Housing Limited (FHL), Merlin Housing Society Limited (MHS) and Bromford Home Ownership Limited (BHO).

may be affected by its activities or services. It should be used by all to ensure they understand the obligations placed upon Bromford to maintain a safe environment for customers and colleagues within the home of each customer and within all communal areas of buildings.

Bromford Flagship will follow a systematic approach to the management of gas safety to ensure it meets the requirements set out in The Gas Safety (Installation and Use) (Amendment) Regulations 1998. This is to ensure the safety of customers, leaseholders, colleagues, and members of the public.

This Policy covers both domestic and commercial (e.g., communal and district heating systems). It also covers properties with a gas supply or a readily available gas supply where there are no appliances connected to the gas supply.

#### 2. Legislative Requirements

The application of this policy will ensure compliance with the Safety and Quality Standard (consumer standards) April 2024

# 2.1 Legislation

The principal legislation applicable to this policy are as follows:

- Gas Safety (Installation & Use) (Amendment) Regulations (GSIUR) 2018
- Gas Safety (Management) Regulations 1996
- Building Regulations 2010 including all approved documents
- British Standard BS7671:2018 (18th Edition) IET Wiring Regulations
- Health & Safety at Work Act (HASAWA) 1974
- Management of Health & Safety at Work Regulations 1999
- The Construction (Design and Management) Regulations 2015
- The Housing Act 2004 Including (HHSRS)
- Landlord & Tenant Act 1985
- The Smoke and Carbon Monoxide Alarm (Amendment) Regulations 2022
- Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013 (RIDDOR)

# 2.2 Codes of Practice & British Standards

The principal Codes of Practice and British Standards applicable to this policy are:

- Safety in the installation and use of gas systems and appliance (ACOP & guidance L56)
- A Guide to Landlords Duties Gas Safety (Installation and Use) Regulations INDG285
- Gas Industry Unsafe Situations Procedure with amendments July 2022 and June 2024 (IGEM/G/11 Edition 2)
- BS7593:2019 Code of practice for the preparation, commissioning and maintenance of domestic central heating and cooling water systems

# 3. Responsibilities/Duty holder

Role	Responsibilities	Frequency
Board	<ul> <li>They are the responsible legal entity and must oversee the discharge of the required standards.</li> <li>They act as Duty Holders and are accountable for ensuring the implementation of this Policy and the associated Management Plans</li> </ul>	6 Monthly/ Annually

Audit and Risk	<ul> <li>They will receive assurance through regular performance reports that the Policy and Management Plan are being implemented and that the regulations are being fully complied with.</li> <li>In doing so they will ensure the safety of colleagues, s, contractors, and the wider public has not been compromised.</li> <li>They will also ensure that appropriate governance arrangements are in place to keep internal stakeholders, and other interested third parties, informed of the regulatory landlord compliance position.</li> <li>The Board will be responsible for ensuring that any necessary remedial action, arising from performance reports, are undertaken to comply with the Policy and ensure that a regulatory landlord compliant position is maintained.</li> <li>Will receive reports and commentary on Gas Safety compliance performance at each meeting.</li> <li>Seek assurance that the regulations are being</li> </ul>	Quarterly
Committee	<ul> <li>adhered to providing challenge on the adequacy of controls</li> <li>They will receive Internal Audit reports, and monitor the delivery of actions arising, through to successful completion.</li> <li>They will draw any concerns they may have arising from such reports to the attention of the Board</li> <li>Provide critical friend support and advice</li> </ul>	Quarterly
Chief Executive Officer	<ul> <li>Retains the overall responsibility for the monitoring of the consistent implementation of this Policy and associated Management Plans to effectively comply with the regulatory standards.</li> <li>If the regulatory standards are not maintained to report any breach in standards to the Board and Regulator of Social Housing.</li> </ul>	Ongoing

# 4. Principles

Bromford Flagship will comply with statutory, legislative and regulatory standards and are committed to providing a robust, safe, efficient and cost-effective service to our customers in relation to the management of Gas safety. In respect of our responsibilities for Gas safety Bromford Flagship will:

## 4.1 Gas Safety Principles

- Provide clear lines of responsibility for the management of gas systems, pipework and appliances supported by written guidance in the Gas Safety Management Plans.
- Retain an averse risk appetite in matters relating to gas safety.
- Ensure robust gas safety procedures are in place and adhered to by all colleagues. This
  will be achieved by providing relevant training for all colleagues involved with gas
  safety.
- Completing a gas safety check and service on all relevant appliances in Bromford Flagship maintained properties, within 12 months of installation/handover or at intervals of not more than 12 months since the last safety check.
- Carrying out a gas safety check and service on all relevant appliances at every change of occupancy e.g., voids, mutual exchanges, transfers, decants
- Carrying out a gas safety check and service on all relevant appliances at intervals of not more than 12 months in standing stock properties and longer-term empty homes.
- Completing the gas safety check and service results on a Landlord Gas Safety Record and storing this document securely.
- Providing a copy of the Landlord Gas Safety Record to customers within 28 days of completion.
- Providing a copy of the Landlord Gas Safety Record to any new customer as part of the empty homes process.
- Only using a competent and Gas Safe Registered engineer to complete any gas work.
- Undertaking a 5% audit, utilising an independent third-party gas consultant on all service and safety checks relating to gas appliances and their installations.
- Undertaking gas related repairs in line with performance targets.
- Promptly dealing with unsafe gas situations by making them safe and carrying out repairs with agreed timescales.
- Maintain a process for dealing with gas safety unsafe situations in accordance with the Gas Industry Unsafe Situations Procedure (IGEM/G/11), Gas Safety Regulations (GSIUR) 2018 and RIDDOR requirements.
- Installing and maintaining CO detectors in all our properties where there is a fixed combustible appliance (excluding gas cookers)
- Completing an annual service of smoke and carbon monoxide (CO) alarms.
- Inspecting relevant domestic properties every 12 months & commercial every 6 months, which are known not to contain gas or have had installations decommissioned, to ensure that appliances or supplies have not been connected without Bromford knowledge.
- Having a robust process for gaining access, by appointment, to conduct fuel safety checks, servicing and other works.
- Taking appropriate legal action where customers refuse or fail to facilitate access to their home to undertake the service/safety check. This includes external and internal meters.
- Disconnect and cap-off the gas supply at the meter and make safe upon a property becoming void. When the property is then re-let, the gas supply is reconnected and a new Gas Safety Inspection will take place, with the issue of a new Gas Safety Certificate (LGSR). If a property is void for more than a 12-month period a Service/Inspection visit will be made around the anniversary date to ascertain that the gas supply is still capped and disconnected (unless the gas has been terminated at the highway outside the property by the transporter and we are in receipt of a disconnection certificate).
- Isolate the gas supply at the meter / ECV and make safe all new build properties handed over to Bromford Flagship from any developer in circumstances where the property will remain unoccupied for more than 72 hours. When the property is then let or sold, the

gas supply will be reconnected and a new Gas Safety Inspection will take place, with the issue of a new Gas Safety Certificate (LGSR). If a property is void for more than a 12-month period a Service/Inspection visit will be made before the anniversary date to ascertain that the gas supply is still capped and disconnected (unless the gas has been terminated at the highway outside the property by the transporter and we are in receipt of a disconnection certificate.

- Capping off gas supplies, following a risk assessment, if access cannot be gained to carry
  out a safety check to mitigate risk to customers, property, or the wider neighbourhood,
  monitoring these properties regularly and retaining these properties on the annual
  servicing programme.
- Installation of service interrupters where we encounter repeated access problems.
- Installation of service interrupters on all new boilers fitted.
- Monitoring customer requests to undertake work affecting any combustible appliance, installation or flue maintained by Bromford Flagship.
- Removing open flued appliances at every opportunity where circumstances allow (e.g., solid fuel appliances and gas fires)
- Ensuring all new build properties in Bromford Flagships management are included in the appropriate servicing programme for future inspection and maintenance in accordance with this Policy.
- Encouraging leaseholders to maintain their own appliances and request evidence of Gas safety checks from leaseholders for all HRBs 18m+.
- Ensure every contractor or consultant employed by Bromford Flagship to carry out works in our homes and buildings has the relevant licenses, registrations, accreditations, competencies and qualifications, as specified by the relevant regulations and Bromford Flagships procedures.
- Ensure colleagues receive appropriate training to fulfil their duties in relation to managing Gas safety.
- Fulfil our commitment to equality and diversity while delivering Gas services to our customers.

## 4.2 Additional Safety Measures

 Require that alterations should be subject to prior notification, agreement, and appropriate landlord's permission (Refer to Customers Alteration Policy) from Bromford Flagship to proceed before they are undertaken – as is required by the Tenancy Agreement. Permission will not be unreasonably withheld. Any unauthorised alternations will be required to be removed by Bromford Flagship's appointed contractor at the 's own expense.

#### 4.3 Data

- Maintain an up-to-date Master Database of all properties where we have a responsibility to provide Gas Safety Checks and maintenance including testing of gas systems, pipework, controls and appliances.
- For each relevant property record and maintain up to date data confirming which of the systems and appliances within the scope of this Policy exist and do not exist and the organisation's associated responsibility.
- Where a requirement exists hold data and certification relating to the last two Safety Checks and record the next due date.
- Where a requirement does not exist hold appropriate evidence.
- Maintain current and up to date records of remedial works for the entire portfolio which will detail all recommendations from Gas safety checks.

#### 4.4 Access

- Have a robust process in place to gain access to homes and property for undertaking essential Gas safety inspection and works, in accordance with Bromford Flagships access procedures.
- Take appropriate legal action where customer refuse or fail to facilitate access to their home to undertake Gas safety checks and maintenance of gas systems, pipework and appliances.

# 6. Competence and Training

We will commit to demonstrating a sufficient level of skill, knowledge and aptitude that shows we can provide good quality advice and services to our customers. Competence will be detailed

through our process and procedure documentation and remain under continuous review to ensure we provide our services safely and by suitably trained colleagues.

# 7. Agreed KPIs

The following KPIs are reported to the Executive Team on at least a monthly basis:

- Number of LGSRs expired within the previous calendar month
- Number of current expired LGSRs
- Number of LGSRs due to expire in the next 7 days
- Number of LGSRs due to expire in the next 30 days
- Number of LGSRs due to expire in the next 60 days

The Board are provided with the following KPIs on a monthly basis:

- Number of LGSRs expired within the previous calendar month
- Number of current expired LGSRs

Disclosure Committee are provided with the following KPIs on a monthly basis:

- Number of LGSRs expired within the previous calendar month
- Number of expired LGSRs in current month
- Cumulative number of expired LGSRs over the last rolling 12 months
- Number of LGSRs due to expire in the next 7 days
- Number of LGSRs due to expire in the next 30 days
- Number of LGSRs due to expire in the next 60 days

Operational KPIs and MI are monitored daily by the Compliance Team and Service Delivery Team using Power BI reports. Exceptions are highlighted to Senior Leaders immediately.

#### 8. Assurance Framework

Our risk appetite is averse for health and safety risks. We have zero tolerance for actions or omissions that could compromise the health and safety of individuals affected by our operations. We are committed to upholding the highest standards of health and safety compliance, proactively identifying and mitigating risks, and fostering a culture of safety throughout the organisation.

Our assurance framework should be read in conjunction with this document to understand how we undertake assurance in line with our risk appetite.
